

Hi, everyone! I'm Katherine Gorman, the other co-chair for communications at NeurIPS 2020.

Thanks to everyone for taking the time to be here. Your collaboration and cooperation has allowed us to evolve the communications program at NeurIPS over the last couple of years and we're very proud of the growth we have achieved.

This year's communications efforts would absolutely not have been possible without the hard work and unfailing support of my co-chair Michael Littman, who opened the press conference for us today and I just wanted to take a moment to thank him for his collaboration and his friendship.

We've also been supported this year by a fabulous team at Interpose and I wanted to thank them all for their hard work.

We have a lot of amazing work being presented at this year's conference and we hope that you will enjoy exploring it with the practitioner community. Should you have any questions or need access to anything over the course of the conference, please email us at press@NeurIPS.cc and we will get back to you as soon as possible.

Again, thanks for joining us this morning and we hope to see you around the conference!
